CERTIFIED MAIL - RETURN RECEIPT REQUESTED

SEP 29 1983

Mr. Norman Butterworth  
Aerovox  
740 Belleville Avenue  
New Bedford, MA 02745

U.S. v. [unclear]  
Litigation

Re: NPDES Reapplication No. MA0003379

Dear Mr. Butterworth:

The supplemental information submitted by you for your three additional stormwater runoff discharge points has been reviewed and found to be deficient in the following areas:

FORM 2C

## Item IX - Certification

The application must be signed by a responsible corporate officer.

## Item V

Parts A, B, & C - Each outfall must be reported separately. However, if you have two substantially identical outfalls, you may request permission to sample and analyze only one outfall. This request should be submitted in writing. Please refer to the instructions on page 2C-2 for the information required.

Within 30 days of receipt of this letter, you are required to submit the above mentioned information to this office. This information should be supplied on your original application which is enclosed. Failure or refusal to correct the deficiencies noted may result in denial of your new permit. Such a denial would require you to cease the activities authorized by your original permit or would subject you to enforcement action under Section 309 of the Clean Water Act, as amended, for operating without a permit.

If you have any questions relative to this submittal, don't hesitate to contact Shelley Puleo of my staff. She may be reached at 617/223-5050.

Sincerely yours,

Edward K. McSweeney, Chief		CONCURRENCES
